MUBASHIR ALI

MERN Stack Developer | Automation & AI Integration Specialist

03444980396 | mubashirali200512@gmail.com | Portfolio : Mubashir-Portfolio |Github: MubashirACode

PROFESSIONAL SUMMARY

MERN Stack Web Developer with 1.5 years of hands-on experience building and maintaining full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in workflow automation with n8n and website/funnel design with GoHighLevel (GHL). Strong working knowledge of AI tools, with proven ability to apply them effectively to speed up development, automate repetitive tasks, and improve project outcomes. Comfortable working in fast-paced agency environments and collaborating across teams.

WORK EXPERIENCE

MERN Stack Developer — *Fluxigo Software Agency* *jan* 2025 - *july* 2026

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built automation workflows using n8n to streamline internal and client processes.
- Designed and configured websites and funnels using GoHighLevel (GHL) for client projects.
- Took part in team management, coordinating tasks and supporting collaboration across the development team.
- Applied AI tools throughout the development process to improve efficiency and code quality.

PROJECTS

Quick AI SaaS Web App — *MERN Stack*

Live Link: https://quickai-macoder.vercel.app

- Developed a Quick AI SaaS web application incorporating all key features.
- Replicated the design and functionality of the provided website using React.js.
- Created a separate backend using Node.js, Express.js, and Mongoose.

Resume Builder Web App — *MERN Stack*

Live Link: https://resume-builder-1s4y.vercel.app

- Built a full-stack Resume Builder using the MERN stack with a clean, production-level architecture.
- Implemented real-time resume editing with PDF generation and download using pdf-lib.
- Designed a responsive, user-friendly UI using React.js and Tailwind CSS.

AI-Powered Blog App — *MERN Stack, Google Gemini API, ImageKit API*

Live Link: https://quick-blog-weld.vercel.app

- Built a full-stack AI-powered blog application using the MERN stack, Google Gemini, and ImageKit API.
- Developed an admin panel where blog posts are generated using AI and published directly.
- Built the complete frontend and admin panel functionality from scratch.
